1. Read the Internship Report Text Below

Title: Internship Report at TechnoSoft Solutions

1. Introduction

This report presents my internship experience at TechnoSoft Solutions, a software development company located in Jakarta. I joined the company as a front-end developer intern from January 10 to March 20, 2025. The purpose of this internship was to apply the knowledge I learned at university and gain experience in a real work environment.

2. Company Profile

TechnoSoft Solutions is a company that develops mobile and web applications. It was founded in 2015. The company's mission is to provide smart digital solutions for small and medium-sized businesses.

3. Internship Activities

During the internship, I worked with the web development team. I created web pages using HTML, CSS, and JavaScript. I also helped test websites and fix errors. One of my main tasks was redesigning the homepage of an e-commerce website.

4. Problems and Solutions

I had difficulty understanding some of the JavaScript code at first. I solved this problem by asking my supervisor for help and watching tutorial videos.

5. Conclusion

I learned a lot during this internship, especially about teamwork and communication. I also improved my coding skills. I recommend this company for future interns who want to learn about web development.
